

Samaritan Employee Resource Groups

Samaritan Employee Resource Groups (SERG) are SHS supported and employee-managed groups that promote the diversity, equity and inclusion goals and strategies of SHS while promoting personal and professional growth for SHS employees. They comprise people with a shared set of culture, experiences, interests and perspectives. They also provide opportunities for social support, networking, mentoring and community participation, and help promote cultural awareness and employee engagement. SERGs are open to all SHS employees. For information contact Kaylie Wengrzynek at kayliew@samhealth.org.

Interested in joining a SERG? Here are our current SERGs:
